 - (b) For regular season and area tournament matches, teams may remain on the same benches throughout the match with the option to change benches if conditions warrant, (i.e. sunshine, spacing, uneven net, etc.) Decision must be made and communicated prior to first

 - (d) All matches at all levels of play consist of the best 3-out-of-5 games with the fifth game 15 points. A modified format (best 2-out-of-3 games with the third game 15 points) may be used for non area varsity tri-matches, varsity invitational tournaments and sub-varsity matches. (Adoption of Rule 1-2-3, Note 2).
 - (e) All matches in championship play (regular season area matches and area, super regional and state tournament matches) must be the best 3-out-of-5 games with the fifth game 15 points.

5. It is the responsibility of each member school to make sure all officials used are registered with the AHSAA. Please see officials' fee information on page 258.
 6. Each school may hold spring practice any time between the end of the basketball season and the end of school for a maximum of 5 days during any consecutive 10 school-day calendar period. Each school is permitted one spring practice period, which shall be open to incoming new students from feeder schools. A jamboree or regulation match is not permitted.
 7. Forfeit time is 30 minutes after the scheduled starting time. If the host team is notified prior to the scheduled starting time that an emergency situation will delay the visiting team's arrival, the forfeit time may be delayed.
 8. A Wilson ball with the NFHS Authenticating Mark must be used in all matches in championship play (regular season area play, area tournaments, super regional and state tournament). Balls with color panels (3 colors and the remaining surface of ball to be white) may be used according to the preference of the home team. Red-White-Blue colored balls will be used in the State Tournament.

Tie-Breaking Procedure

Regular Season Tournaments

This tie-breaking procedure will be used for placement of teams in a regular season tournament if there are any percentage ties after the completion of pool play.

In the event of a percentage tie for any specific place, the team with the highest ranking will be determined by applying the following factors in the order listed, beginning with (a) if two teams tie or (aa) if more than two teams tie.

After the highest-ranked team is determined, the next ranked team will be determined by applying the factors, beginning with (a) or (aa) as applicable, for all other teams involved in the tie. If one factor does not resolve the tie, then the next factor will be applied for all teams involved in the tie.

The factors:

Two-Team Tie

- (a) Head-to-head competition during pool play. (The winner will be put in the specific place, the loser in the next highest place.)

More Than Two Teams Tie

- (aa) Games won percentage against all teams involved in the tie. (To calculate: total games won DIVIDED BY total games played.)

If two teams tie for the highest "games won percentage," the team that won their head-to-head competition during pool play will be put in the specific place, the other in the next highest place.

- (bb) Points won percentage against all teams involved in the tie. (To calculate: total points won DIVIDED BY total points played.)

If two teams tie for the highest "points won percentage," the team that won their head-

to-head competition during pool play will be put in the specific place, the other in the next highest place.

- (cc) Apply factor (aa) against the team(s) in pool play not involved in the tie.
- (dd) Apply factor (bb) against the team(s) in pool play not involved in the tie.
- (ee) Playoff using one 15-point game per match. (Three-way tie format: One team draws bye, the other two teams play. Winner of first match plays the team that drew the bye.)

Area Tournaments

This tie-breaking procedure will be used for placement of teams in an area tournament if there are any percentage ties after the completion of regular season play.

In the event of a percentage tie for any specific place, the team with the highest ranking will be determined by applying the following factors in the order listed, beginning with (a) if two teams tie or (aa) if more than two teams tie.

After the highest-ranked team is determined, the next ranked team will be determined by applying the factors, beginning with (a) or (aa) as applicable, for all other teams involved in the tie. If one factor does not resolve the tie, then the next factor will be applied for all teams involved in the tie.

The factors:

Two-Team Tie

- (a) Head-to-head competition during regular season area play. (The winner will be put in the specific place, the loser in the next highest place.)
- (b) Games won percentage against the other tied team during regular season area play. (To calculate: total games won DIVIDED BY total games played.) The team with the highest “games won percentage” will be put in the specific place, the other in the next highest place.
- (c) Points won percentage against the other tied team during the regular season area play. (To calculate: total points won DIVIDED BY total points played.) The team with the highest “points won percentage” will be put in the specific place, the other in the next highest place.
- (d) Apply factor (b) against all area teams not involved in the tie.
- (e) Apply factor (c) against all area teams not involved in the tie.
- (f) By a flip of a coin.

More Than Two Teams Tie

- (aa) Games won percentage against all teams involved in the tie. (To calculate: total games won DIVIDED BY total games played.)

If two teams tie for the highest “games won percentage,” the team that won their head-to-head competition during regular season play will be put in the specific place, the other in the next highest place.

- (bb) Points won percentage against all teams involved in the tie. (To calculate: total points won DIVIDED BY total points played.)

If two teams tie for the highest “points won percentage,” the team that won their head-to-head competition during regular season play will be put in the specific place, the other in the next highest place.

- (cc) Apply factor (aa) against area teams not involved in the tie.
- (dd) Apply factor (bb) against area teams not involved in the tie.
- (ee) By a flip of a coin.

Area Seeding

Brackets for the area tournaments will be drawn up at the site of the winner of regular season play not later than Oct. 16, 2018 for all classes. In order to qualify for the area tournament, each team must play each area opponent one or two regular season matches or two regular season matches prior to the seeding meeting. Which format must be determined prior to the start of the regular season. All matches must be 3 of 5. If an area does not decide prior to the season the number of matches required against each area opponent, the first match played against each area opponent will be used in computing standings for seeding purposes.

The No. 1-seeded team will host the area tournament. If the No. 1-seeded team does not wish to host the area tournament or cannot provide a facility that meets the gym criteria minimum standards, the No. 2-seeded team will host the area tournament.
